

Civil Construction Plant Operations Apprenticeship Program Overview

Hazell Bros offers three-year apprenticeships in the civil construction industry working on a variety of major infrastructure projects operating earthmoving plant.

The civil construction industry includes the planning, creation and maintenance of public infrastructure (basically anything that will make peoples lives easier!).

As an apprentice with us, you would be part of a team working on major works infrastructure projects, civil works and/or ground services projects.

We require our apprentices to have a current manual driver's licence (minimum of a Provisional Manual Drivers Licence), excellent communication skills, a willingness to learn and try new things, enjoy problem solving, be a team player, enjoy working outdoors, operate heavy plant machinery and have a genuine desire to learn about and work in the civil construction industry.

At Hazell Bros we value diversity in all its forms, including gender diversity. We encourage applications from women to join our team.

EARTHMOVING PLANT OPERATOR

A hands-on apprenticeship in civil construction to service some of Tasmania's major and minor ground works projects. Skills will be developed combining on and off the job learning under a qualified Plant Operator.

Typical tasks include:

- Assist the team with civil works including road works projects, construction and maintenance
- Operating heavy plant including excavators, rollers, articulated dump trucks, water trucks etc.
- Operate heavy vehicles
- Understand materials - moisture levels, compaction principles, required materials for the job etc.
- Using GPS machine control technology
- Working on roads, carpark, pipelines, our quarries sites and major infrastructure projects.
- Working in high activity work areas

Statewide travel may be required to and from the job for extended periods of time depending upon project location.
